

Iyesomi (Somi) Eigbe

M.S. Aeronautics & Astronautics · Stanford University

somisash@stanford.edu Palo Alto, CA

EDUCATION

M.S. Aeronautics and Astronautics · *Stanford University*

Sep 2025 – Present | Stanford, CA

- Focus: Space debris, orbital congestion, and debris mitigation policy
- Engineering Learning Consultant, Center for Teaching and Learning — supports graduate engineering students through workshops, studios, and peer learning programs

B.S. Aerospace Engineering · *University of California, Los Angeles*

Sep 2023 | Los Angeles, CA

- Relevant coursework: CAD, MATLAB, aerodynamics, spacecraft systems, orbital mechanics
- Member: UCLA Rocket Project (External Outreach Lead), Bearospace, CEED, Women of Engineering (WE@UCLA), Students With Dependents (SWD)

Associate Degree, Mathematics & Physics · *American River College*

Jan 2022 – Jun 2023 | Sacramento, CA

Regents Engineering Transfer Program · *Valdosta State University*

Aug 2018 – May 2021 | Valdosta, GA

Post-Graduate Diploma, Computer Science · *Lagos State University*

Aug 2005 – Dec 2012 | Lagos, Nigeria

RESEARCH & PROJECTS

Space Debris & Orbital Safety Research · *Stanford University*

2023 – Present

- Investigating orbital congestion, Kessler Syndrome dynamics, and the intersection of technical debris mitigation strategies with international governance frameworks
- Applying systems-level thinking to how engineering design and policy must co-evolve in the rapidly growing low-Earth orbit environment

Construction Robot for Niger Delta Infrastructure · *IET Present Around the World Competition*

Nigeria

- Conceptualized, designed, and built a prototype construction robot to address infrastructure challenges in Nigeria's swampy Niger Delta region
- Led a team of engineers and welders at Setraco Construction Company from prototype design through fabrication

- Served as lead programmer for iRobot base and microcontroller, enabling obstacle avoidance and hydraulic system control
- Won the IET PATW competition as the only female participant; represented Nigeria at regional finals in France
- Presented prototype to the Governor of Lagos State; awarded a research continuation grant

Model Rocket Design & Drag Analysis · <i>UCLA</i>	2023
--	------

- Designed a model rocket using CAD software, performed drag analysis, and presented findings

Aerospace Engineer Demographics Study · <i>UCLA</i>	2022–2023
--	-----------

- Created a comprehensive data profile of aerospace engineers — demographics, graduation rates, industry distribution, and job satisfaction trends

PROFESSIONAL EXPERIENCE

Engineering Learning Consultant · <i>Stanford Center for Teaching & Learning</i>	2023 – Present Stanford, CA
---	-------------------------------

- Design and facilitate hands-on engineering studios and workshops for graduate engineering students
- Topics include: research tools, academic paper reading strategies, productivity, and technical communication
- Develop participant worksheets, slide decks, and instructor guides for each studio session

Senior Coordinator, Admissions & Enrollment · <i>California Northstate University</i>	Sep 2021 – Aug 2022 Rancho Cordova, CA
--	--

- Coordinated all admissions and enrollment processes for the College of Health Sciences

Admissions Clerk · <i>College of Coastal Georgia</i>	Jul 2019 – Aug 2021 Brunswick, GA
---	-------------------------------------

- Managed student admissions administration and records

Web Services Intern · <i>Valdosta State University</i>	Jan 2018 – May 2019 Valdosta, GA
---	------------------------------------

- Developed a new web database and directory for 1,000+ students and employees, improving user experience and search functionality

LEADERSHIP & COMMUNITY

Founder · <i>Hermon Foundation</i>	Ongoing
---	---------

- Founded a breastfeeding awareness initiative supporting nursing and expectant mothers — combining advocacy, community-building, and health education

First Female Chair · <i>IET Young Engineers Nigeria</i>	Nigeria
--	---------

- Led the IET Young Engineers chapter as its first female chair; organized competitions, mentoring programs, and engineering outreach events

TV Producer & Host · <i>Inventors Showcase Program</i>	Nigeria
---	---------

- Produced and hosted a television program for inventors, exploring how innovations can positively impact communities in Africa and beyond

- Interviewed high-profile personalities across Information Technology and STEM

Volunteer · <i>STEM Mentorship & Domestic Violence Support</i>	Ongoing
---	---------

- Tutored and mentored high school students in STEM subjects
- Volunteered at Camden House, a shelter for survivors of domestic violence

SKILLS & TOOLS

Engineering	CAD (SolidWorks / Fusion 360), MATLAB, C++, orbital mechanics, systems design, robotics, hydraulic systems
Research	Literature synthesis, policy analysis, technical writing, data analysis, academic presentation
Teaching	Curriculum design, workshop facilitation, peer coaching, instructional guide development
Software	Microsoft Office, web development (HTML/databases), GitHub
Languages	English (fluent), Yoruba (native)

HONORS & RECOGNITION

- IET Present Around the World — National Winner, Nigeria; represented Nigeria at European Regional Finals, France
- Governor's Research Grant — awarded by the Governor of Lagos State for innovation in infrastructure technology
- Regents Engineering Transfer Program — competitive transfer pathway, Valdosta State University
